ment, who, for a micro philades for all all and for protect the property of the first all the bear also open up of the Chief Engineer.

The port of the Chief Ragineer.

To the bear of the Phy Decisioness

that a log boar of about on 1, 24, or only all or of 60 off.
To the Board of Selectmen of the Town of Rochester! and

Gentlemen—The Engineers having attended to the duties assigned them, respectfully submit the following Report:

There are are four Engines belonging to the town, with good and well organized Companies for each Engine.

Cochecho No. 1 and Torrent No. 2 are located in the Village at the Plains. Tiger No. 3 is located at the Conic Village, and Torrent No! 4 at East Rochester Village.

The Machines are all in fine condition, and in good working order; and much is due to the Stewards appointed by the several Companies, for the interest and pride they manifest in having their Machines in readiness at all times to do effective service if called upon.

The Fire Department have been called out five times during the year; twice at a fire in the Factories of the Norway Plains Company—at a fire at the Tannery of E. G. & E. Wallace, also in the Tailoring establishment of H. Veschoff, over the store of Burnham & Brown, and at the house of Wentworth Goodwin.

They have also been called out at one false alarm during the year. At all the fires above named, it was clearly demonstrated to all who witnessed the exertions made, and the energy exhibited by our Firemen, that in no place can they boast of having a better or more efficient set of men belonging to such an organization, than we have in this town; and at the several fires they have been called upon to extinguish, by their untiring exertions, much valuable property has been saved—enough to pay for all the appropriations that have been made, or will be made for this Department for many years. Fully appreciating the services rendered at the fire in the Mills of the Norway Plains Company, J. D. STURTEVANT, Esq., Agent, presented to each Company engaged in this work a liberal sum in money as a testimonial and acknowledgment of their valuable services.

We hope the citizens of Rochester will feel that it is for their interest, and a duty, to sustain liberally our Fire Department, who, for a mere pittance, are always ready to protect their property at the first alarm of fire, and who have also appropriated most of the money received of the town for services

for the benefit of the Fire Department.

The Cochecho Engine Co. No. 1 are much in need of a Bell for their Engine, and have felt the importance of having one many times when called out at night; as without this necessary appendage to their Machine they find it difficult to call the Company together, or inform them of the location of the Engine; and it is hoped that the town will at once procure one for this Engine.

There has been one fire (only a few days ago) not mentioned in the foregoing Report, where the Firemen were not called upon; the house occupied by Mr. Young, located out of the village, and some distance from any other dwelling, caught fire during his absence, and was almost entirely consumed before it was discovered—in which he lost his Household Furniture, and all he possessed, and we trust the citizens will generously respond to the call that has been made for his relief.

VER TO A SHE TO SECTION N. T. KIMBALL, Chief Engineer.

Francis Orr, Secretary. odd is out a la - vinsquise suits a serie i se

They have also been chied but it one files along dividingly year. Attest the fires above pended, it was clearly denotogies to the all who withested the Excitions made, and the cubric exhibited by our Pirement that in no place can they boast of having a better of more chicient set of more belonging to such an organization, than we is very in this town; and at the reveal fires they lake been called upon to extincticle, by their imfired exertions, much valuable properly have been reveduing to pay for all the appropriations that have been made, and the particle of this Department for team years. This would be New by Plains Company, J. D. Strutterson, Rei, Agent proceeded to each Company, J. D. Strutterson, Rei, Agent proceeded to the for a thick of the money as a testimental and acknowledgement of their value the savings.

We hope the enisons of Rheheard will ifed that it is not also intended and a dely, he sustain liverally out the Part 10 and a
